

## The Hemp IQ Story

**Hemp IQ** might be new to the beauty scene, but we're not new to the skin care scene! As a 26 year veteran in the beauty and spa industry, our manufacturing facility is known for creating award winning product lines that are sold in over 75 different countries worldwide. Hemp IQ was born from our passion for products and a demand for the skin softening benefits at an affordable price. With Hemp IQ, we don't compromise on ingredients. We can bring you the highest quality skin care formulas on the market directly to your home and bath!

Hemp IQ is enriched with **100% Pure THC Free Hemp Seed Oil** which delivers strengthening, long-lasting, vitamin rich hydration. What makes our products stand apart from other Hemp Seed skin care products on the market is that we start all of our formulas with a skin softening **Aloe Vera Gel** base. Aloe Vera has been around for years, as it is power packed with unmatched healing, replenishing and nourishing properties that are used throughout skin care products worldwide. With Hemp IQ we are proud to bring you skin care products that contain antioxidant rich Hemp Seed oil, combined with skin softening Aloe Vera Gel plus many more vitamins and nutrients. After one use of Hemp IQ, we promise, your skin will thank you!

***All our formulas are non-comedogenic, sensitive skin friendly, vegan, cruelty free, paraben free, and proudly made in the USA.***

Hemp IQ is a full and true manufacturer based in Tampa, Florida. We make everything in-house. We have our own chemists, graphic design team, manufacturing, filling, warehousing, and shipping departments. In addition, we produce **BPA free plastic bottles with 100% recyclable materials.**
