PRODUCT DETAILS:

- DHA, Natural and Cosmetic bronzers are utilized to impart dark color for the tanner seeking, quick, dark results
- BodyFit™ – Targets and reduces the appearance of cellulite
- Matrixyl Synthe 6™ – A blend of 6 anti-aging peptides that work to reduce the appearance of fine lines and wrinkles for a more youthful appearance to the skin
- MelanoBronze – Stimulates the production of melanin for more natural results
- MelaTime™ – Boosts Melanin production for faster, darker results.
- Chicory Extract – Provides an immediate tanned appearance 60 seconds after application
- Caramal extract - Yields a dark and more natural hued tan
- Tattoo & Color Fade Protecting Technology – Protects the color and luster of your tan and tattoos
- Coconut Oil & Coconut Fruit Extract – Provides skin with extended moisture while repairing dry, damaged skin
- Coffee Bean Extracts – anti-inflammatory, works to reduce puffiness and swelling while increasing circulation

KEY SELLING STATEMENT:

Fit in wherever you go with iChameleon™'s revolutionary formula that is designed with anti-aging and cellulite fighting ingredients to keep your skin tight and toned! Added tattoo and color fade protectors help keep the color & luster of your tan and tattoos. Coconut oils and coffee bean extracts are paired together to keep your skin at superior hydration levels while blocking free radical damage. Multiple melanin maximizers along with caramel extract bronzing agents work together to achieve deep dark results!
